LETTER OF RECOMMENDATION

To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for **Eng. Mohamad Ahmad El Halabi**, who completed his cooperative training at **The Morfity - Digital Agency, Beirut, Lebanon**, from **15 May 2026 to 15 July 2026** under my direct supervision.

Throughout his training period, Mohamad distinguished himself through exceptional professionalism, technical depth, ownership, and maturity. Although he joined us as a trainee, he consistently performed at a level comparable to a highly capable junior engineer, taking responsibility for real client-facing work and delivering outcomes with impressive reliability and care.

During his placement, he made outstanding contributions across several major projects. He helped design and deliver the **Morfity AI Sales Assistant and Employee Dashboard**, contributed to the development and validation of **MetaTrader 5 trading strategies**, and played a key role in building and deploying the **OneSub Dive Center e-commerce platform**. Beyond strong technical execution, he also supported mentorship and business strategy discussions, demonstrating excellent communication skills and sound professional judgment.

What impressed me most was his ability to combine technical competence with initiative. Mohamad approached challenges with a problem-solving mindset, learned quickly, communicated clearly, and maintained a high standard of quality in everything he delivered. He was dependable, respectful, and capable of working independently while also contributing effectively within a team.

I recommend **Eng. Mohamad Ahmad El Halabi** without reservation for positions in **AI engineering, full-stack development, software engineering, automation, and digital product development**. I am confident that he will be a valuable asset to any organization fortunate enough to have him.

Please feel free to contact me for any further information.

Sincerely,

Professionalism | Technical Ownership | Reliability | Fast Learning | Communication

INTERNSHIP EXPERIENCE LETTER

To Whom It May Concern,

This letter confirms that **Eng. Mohamad Ahmad El Halabi** successfully completed cooperative training at **The Morfity - Digital Agency, Beirut, Lebanon**, from **15 May 2026** to **15 July 2026**, under the direct supervision of **Yamaan Meouch**. During this placement, he served as a **AI & Full Stack Engineer** trainee and was assigned to practical company and client-facing work.

Throughout the training period, Mohamad contributed to real deliverables across AI systems, internal dashboard development, algorithmic trading strategy validation, e-commerce product development, and business-support activities. His work reflected seriousness, accountability, and a high level of professional conduct.

He demonstrated the ability to understand business requirements, execute technical tasks responsibly, communicate progress clearly, and follow through on assigned work until completion. He also showed strong learning agility and the ability to contribute effectively within a fast-moving digital product environment.

This experience letter is issued upon request for employment, professional reference, and career-application purposes.

Verified Training • Client-Facing Work • Professional Conduct • Completed in Good Standing

EMPLOYER PERFORMANCE EVALUATION

The following evaluation summarizes the performance of **Eng. Mohamad Ahmad El Halabi** during his cooperative training at The Morfity. The ratings reflect observed work quality, professionalism, technical contribution, and overall conduct during the placement.

Evaluation Area	Rating	Employer Notes
Professionalism	Outstanding	Consistently demonstrated maturity, respect, accountability, and excellent workplace conduct.
Technical Ability	Outstanding	Contributed effectively to practical technical work across assigned systems and projects.
Ownership & Initiative	Outstanding	Took responsibility for deliverables and followed assigned tasks through to completion.
Problem Solving	Excellent	Approached issues methodically and showed strong practical judgment when debugging or improving work.
Reliability	Outstanding	Dependable, responsive, and trusted with work connected to company and client outcomes.
Communication	Excellent	Communicated clearly with supervisors and team members and handled feedback professionally.
Teamwork	Excellent	Collaborated well within the team and supported internal knowledge sharing when needed.
Learning Agility	Outstanding	Learned new systems quickly and adapted well to changing technical requirements.
Quality of Deliverables	Outstanding	Delivered work with care, consistency, and a strong attention to quality.
Overall Performance	Outstanding	Strongly recommended for professional employment consideration.

Overall Rating: Outstanding • Recommendation: Without Reservation

OFFICIAL PROJECT CONTRIBUTION STATEMENT

This statement records the principal project areas in which **Eng. Mohamad Ahmad El Halabi** contributed during his cooperative training at The Morfity. These contributions were observed within practical company and client-delivery contexts.

1

Morfity AI Sales Assistant & Employee Dashboard

Helped deliver an AI-powered sales assistant, lead-qualification workflow, internal dashboard, reporting tools, and production improvements.

2

MetaTrader 5 Strategy Validation

Contributed to the development, testing, validation, and presentation of automated trading strategies and risk-comparison results.

3

OneSub Dive Center E-Commerce Platform

Played a key role in building and deploying a production e-commerce platform with storefront, admin, order-management, and handover features.

4

Mentorship & Business Strategy Support

Supported internal mentoring and contributed to discussions on presenting technical work for sales, marketing, and business-development use.

These contributions demonstrate practical exposure to product delivery, client-centered development, technical validation, and cross-functional business support.

TECHNICAL SKILLS VERIFICATION LETTER

This letter verifies that **Eng. Mohamad Ahmad El Halabi** demonstrated practical involvement in the following technical and professional areas during his cooperative training at The Morfity. The skills below reflect observed project participation, applied learning, and delivered work during the placement.

Skill Area	Verified Practical Exposure / Contribution
AI Systems	Conversational AI assistant development, lead qualification logic, prompt/state design, AI-powered reporting, and voice-interaction workflows.
Full-Stack Development	Practical work involving Python/FastAPI, React/Next.js, TypeScript, dashboard interfaces, API integration, and production-oriented web applications.
Database & Security	Applied exposure to SQL-backed data flows, authentication, tenant-aware access, rate limiting, deployment configuration, and data-protection practices.
Algorithmic Trading	MetaTrader 5 strategy testing, risk-ladder comparison, backtesting discipline, and clear reporting of risk/return trade-offs.
E-Commerce Delivery	Product catalogue, cart/order flows, admin features, client handover, deployment verification, and Cash-on-Delivery business logic.
Professional Strengths	Technical ownership, communication, reliability, fast learning, problem solving, and professional maturity in client-facing work.

AI Systems • Software Engineering • Data-Driven Workflows • Deployment Discipline
