

# LETTER OF RECOMMENDATION

To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for **Eng. Mohamad Ahmad El Halabi**, who completed his cooperative training at **The Morfity - Digital Agency, Beirut, Lebanon**, from **15 May 2026 to 15 July 2026** under my direct supervision.

Throughout his training period, Mohamad distinguished himself through exceptional professionalism, technical depth, ownership, and maturity. Although he joined us as a trainee, he consistently performed at a level comparable to a highly capable junior engineer, taking responsibility for real client-facing work and delivering outcomes with impressive reliability and care.

During his placement, he made outstanding contributions across several major projects. He helped design and deliver the **Morfity AI Sales Assistant and Employee Dashboard**, contributed to the development and validation of **MetaTrader 5 trading strategies**, and played a key role in building and deploying the **OneSub Dive Center e-commerce platform**. Beyond strong technical execution, he also supported mentorship and business strategy discussions, demonstrating excellent communication skills and sound professional judgment.

What impressed me most was his ability to combine technical competence with initiative. Mohamad approached challenges with a problem-solving mindset, learned quickly, communicated clearly, and maintained a high standard of quality in everything he delivered. He was dependable, respectful, and capable of working independently while also contributing effectively within a team.

I recommend **Eng. Mohamad Ahmad El Halabi** without reservation for positions in **AI engineering, full-stack development, software engineering, automation, and digital product development**. I am confident that he will be a valuable asset to any organization fortunate enough to have him.

Please feel free to contact me for any further information.

Sincerely,

**Professionalism | Technical Ownership | Reliability | Fast Learning | Communication**

Date: 15 July 2026

**Yamaan Meouch**

Work Supervisor
